Dear Chairman and Commissioners:

The guardrail on County Road 33 bridge (B-125) was damaged beyond repair by Echo Logging, I, and the County Attorneys, have been attempting to require the insurance company for Echo Logging to pay for the repairs but the company has delayed settlement. The missing guardrails create a danger to the traveling public and we can wait no longer for their replacement. It is apparent the Commission will be required to meet this emergency now without the standard public advertisement for bids and seek reimbursement from the appropriate parties later.

The Code of Alabama states as follows:

“Section 41-16-53. Letting of contracts without public Advertisement authorized in case of emergencies affecting public health, safety, etc. In case of emergency affecting public health, safety or convenience, so declared in writing by the awarding authority, setting forth the nature of the danger to public health, safety or convenience involved in delay, contracts may be let to the extent necessary to meet the emergency without public advertisement. Such action and the reasons therefore shall immediately be made public by the awarding authority.”

Based on this emergency affecting the public health, safety and convenience and in accordance with the appropriate law, it is my recommendation that the Commission immediately contract with H&L Construction, Inc. for the guardrail replacement for the price of $61,525.00.
This company is qualified, has replaced guardrails for Dale County in the past and can proceed in a timely manner.

Sincerely,
